combo pot planting**

**Louisiana designates the third Friday in January as Arbor Day to coincide with Louisiana's tree-planting season. National Arbor Day is the last Friday in April.  
Chairman Pam Langley**

---

**Horticulture Hint** Start a garden record book now, allowing space to record the dates of first and last frost, sowing seeds, planting, transplanting, time of bloom, first fruits, fertilizing, problems with pests, and other information. Over a period of years, or to your new homeowner, this will be an invaluable record.
